

April Curriculum Planning Toolkit

Aims of Planning Toolkit

- Incorporating Careers into the Curriculum (Gatsby Benchmark 4) doesn't have to be limited to students researching a job role which is linked to a subject or listening to a subject linked presentation from someone who works for a local employer. Careers in the Curriculum can mean exposing students to key themes and strands within a subject which captures their interest and encourages them to find out more, allowing them to be exposed to problems they will commit their working lives to solving and practise the skills which they will need to be successful in paid employment.
- Young people should be exposed to regular practice of drawing links between subjects and strands to reduce the risk of confining future jobs prospects to a subject which often results in misconceptions and stereotyping. A suggested way to achieve this is to immerse students in a thematic curriculum project where Careers/employability skills feature as a 'golden strand' of learning along with other core subject strands such as Maths, English and Science.
- This toolkit is designed to support the planning process for teaching staff to develop curriculum topics where Careers is included as a strand along with other subjects as opposed to discreet, standalone Careers activity which is evidenced to have little impact. The toolkit can be used as a CPD/upskilling tool to aid teaching staff in using national stimuli as a vehicle to embed Careers and other subjects into a thematic curriculum which is holistically delivered to students. The toolkit has been designed to be a working document where teaching staff add to and develop stimuli in relevance to the school setting. The toolkit also aims to provide guidance and information with regards to local and national campaigns to help book enrichment in advance and in-line with themes to help provide cohesion across the curriculum.
- N.B. The career inspiration examples highlight current and future jobs. Teaching staff should be responsible for pointing out obvious career links, for example: National Breakfast Week links to the obvious career of a Chef, and using the toolkit to inspire young people with jobs they may not have heard of yet.

Example of how to use the toolkit

- If the school chooses to engage with 'World Space Week', historic practice in Careers-Related Education would include dedicating a one-off timetabled session to conduct web-based research on the various careers linked to space. This toolkit would allow for a wider staff team (department staff, teaching and learning leaders, all teaching staff, etc.) to plan an immersive week where multiple subject sessions reflect the space theme, thus surrounding students with consistent messaging in highlighting how each subject can link to the theme which could reduce misconceptions and stereotypical thinking. Where possible, the toolkit includes a link to local, Doncaster-based businesses who may be happy to support the theme across the whole school or even at classroom level. Examples include providing an opportunity for students to ask an employee burning questions about the sector, arranging an industry visit or employability workshop for young people who may have an interest in a space-related career. This exposes young people of Doncaster to local Labour Market Information (LMI) and raises the profile of Doncaster as a diverse place to work. The local links also signposts workshops and activities which would allow young people to experience Career themes in a practical, hands-on approach which schools may be unable to facilitate due to budgeting and resourcing restrictions. Local employers may also be happy to share insight into their sector, exposing both pupils and staff to subject knowledge perhaps previously unknown. Additionally, this may allow for Careers Leaders to develop a working relationship with employers who are keen to support schools in the absence of national funding. Finally, the national resources column aims to signpost existing resources and information which have been generated at a national level and can be incorporated as additional classroom provision.

How to use the Opportunities Doncaster Monthly Careers Map

This column lists the monthly local, national and global stimuli which schools could use as a vehicle to deliver Careers and other curriculum areas through a theme.

This column provides a small selection of ideas which link curriculum subjects and objectives to the stimuli. These ideas could help plan an immersive, thematic project which allows students to naturally draw links. Ideas can include assembly themes, display ideas, pastoral activities, lesson theme ideas whole school activities and links to existing resources.

This column contains information about local employers in Doncaster who work in the field linked to the stimuli. The employer may be willing to support the theme across the whole school or at classroom level.

Stimulus <i>(Brief summary)</i>	Date	Which Careers link to this stimulus?	Wider Curriculum Activities/Provision	Local supporting business/providers	National resources

N.B. • Future jobs taken from Panjango resource.
• Growth Sectors for the Sheffield City Region taken from National Careers Week posters derived from Office for National Statistics and NOMIS statistics.

In here, you will find a list of current jobs and the predicted future jobs linked to the stimuli, along with a link to the relevant National Careers Service Job profiles.

This column contains information about national employers who work in the field linked to the stimuli. The employer may be circulating free teaching resources or information to support the different curriculum areas which link to the stimuli.

Stimulus (Brief summary)	Date	Which Careers link to this stimulus?	Wider Curriculum Activities/Provision	Local supporting business/providers	National resources
National Pet Month (Raises awareness of responsible pet ownership and the benefits of having a pet)	1 st April - 10 th May	Current: <ul style="list-style-type: none"> Dog Groomer Pet Behaviourist Zoologist https://nationalcareers.service.gov.uk/job-categories/animal-care Future: <ul style="list-style-type: none"> Animal Lawyer Exotic Pet Trader 	<ul style="list-style-type: none"> PSHE: Discuss the benefits and disadvantages of bringing a companion animal into school. English: Write a persuasive letter to SLT to persuade/discourage companion animals in schools. PSHE: Study the advice given for animal welfare and conversation for Doncaster and develop information slides for school plasmas to other educate students. PSHE: Invite an expert in the animal care field (Vet, Veterinary Nurse, representation from local pet rescue centre, etc.) and students to prepare for a Q&A session, e.g. <i>how do we keep animals safe and ensure there are more pets than strays?</i> 	Northern Racing College https://www.thenhc.co.uk/ RSPCA https://www.rspcadoncasterrotterham.org.uk/ Animal Welfare - Doncaster Council https://www.doncaster.gov.uk/services/animal-welfare-pests-pollution	National Pet Month website: https://www.nationalpetmonth.org.uk/ National Pet Month Toolkit: https://www.nationalpetmonth.org.uk/
World Autism Awareness Week (A day to raise awareness and celebrate with unique fundraising events)	30 th March - 5 th April	Current: <ul style="list-style-type: none"> Portage Home Visitor Community Education Coordinator SEND Learning Support Assistant https://nationalcareers.service.gov.uk/search-results?searchTerm=sen Future: <ul style="list-style-type: none"> Learning Guide 	<ul style="list-style-type: none"> PSHE: Students to explore and develop strategies for how schools can promote a better understanding of Autism and supporting pupils with Autism (1 in 100 children is autistic, 40% say they've been bullied). Media/Computing: Inspired by World Autism Awareness Week's Daisy and Ollie, students to design and create their own animation as a creative project to support with the above PSHE suggestion. Design and Technology: Inspire by World Autism Awareness Week, students to design a child-friendly money box (e.g. feed the coins to the fish) to raise money for local Autism Awareness.
