Regular, meaningful encounters with employers is an absolutely vital part of preparing and inspiring young people for the world of work. We know that this kind of support means young people are less likely to be not in education, employment or training (NEET) when they leave school. Becoming a Doncaster Promise Employer means we are committing to working together with our networks, the wider business community, schools and colleges to increase the number of meaningful encounters, and raise awareness and aspirations of our future workforce.

We are a business that is invested in the successful and sustainable delivery of careers education for young people and are proud to be part of the Doncaster Promise.
